LCA Wage data from <http://www.foreignlaborcert.doleta.gov/quarterlydata.cfm>

LCA FY2012 Q2.csv

Data prepared February 3, 2013

Many H-1b are allocated to Saipan for \$5 to \$7 per hour jobs – “best and brightest”?

There are many LCA CERTIFIED for jobs paying \$8 to \$16 per hour in the USA – we have shortage of “Aerobics Instructor”?

While Industry bemoans the “high rate of denials” this data reveals that many denials are subsequently certified upon reapplication for the same job and salary (highlighted). The denials are likely the applicant forgot to check something before submitting. DOL does NOT review LCAs for whether there might a many qualified Americans for positions – that is not the role Congress charged them with.

\$25 per hour programmers, accountants, physical therapists, budget analysts, chiropractors ... these are the workers that Industry and Congress believes we need more of to assure our "global competitiveness"?

Of the 6866 Hourly wage LCAs in this sample, 6509 were for a wage of \$50 or less. We see at that range the jobs are as likely to be Pharmacist, Managers and Management, Dentist, Legal Staff as they are “computer/technology” workers. We see many H-1b going to Indian firms like INFOSYS – as Congress permits them to fill virtually all of their U.S. positions with Indian nationals on H-1b an other visas.

Only about 10 to 15% of H-1b LCAs are for a wage representing a salary over \$100,000 per year.
